

## Principal Illness Navigation (PIN)

Using AI driven technology to enable PIN reimbursements at speed

Vantage and Oncology Consultants showcase how technology can sustainably enhance health equity through their partnership.

Vantage's AI-enabled solution, SocialHealth360, automates social care coordination for cancer patients within the Medicare Principal Illness Navigation program.

This initiative improves patient experience, outcomes, and financial sustainability while simultaneously reducing the administrative burden on the workforce.

Rosa Fletcher  
CEO, Oncology Consultants

"SocialHealth360 enables our team to expand our longstanding focus on Health Equity by delivering the highest quality social care to more patients without overburdening our staff. Our partnership with Vantage has sustainably achieved these outcomes, particularly in light of the Principal Illness Navigation (PIN) program."

John Sargent M.D.  
Co-Founder, Vantage Health Technologies

"We are very excited to support Oncology Consultants in their efforts to innovate and sustainably address Social Determinants through our technology. Together, we are pushing the boundaries by providing cancer patients with all the support they need to stay on treatment."
